## Celebrating 50 Years!

This year, we're celebrating 50 years of offering our customers the highest quality products at the best value. James Campion, our CEO, founded Zirc in 1967 and his daughter Nicolle, who was recently promoted to President, joined the team in 2000. Dental technology and processes have seen many changes over the last 50 years, but at Zirc, our commitment to providing time-saving, innovative dental products continues to be our top priority.

## Zirc Perks

Members receive FREE samples, money-saving promotions, tips to get organized and stay organized, product evaluation invites, and more! Sign up to become a Zirc Perks Member via www.zirc.com or call us at +1 763-682-6636 (available in U.S.A. and Canada only).

## Made in the USA

Since 1967, Zirc has provided the dental industry with new and innovative products used for sterilization and organization in the dental office. Our headquarters, located in Buffalo, Minnesota, houses our engineering, tooling, manufacturing, distributing, and customer service operations. We're proud to say that our state-of-the-art, high-quality products are made in the U.S.A.

## Antimicrobial

Antimicrobial compounds are intended to protect parts against staining, odors, and degradation due to fungi, mold, yeasts, mildew, algaen, and other microbes. Zirc incorporates antimicrobial compounds during the manufacturing process. Unlike a coating, this prevents fading or wearing away, giving you long-lasting protection. The incorporation of antimicrobial compounds in our plastic products is not intended to protect users or others against food-borne or disease-causing bacteria. For more information, please reference EPA Registration Notice 2000-1.

ZOBE the experience

## Experience Our Products* for FREE

The ZOBE kit contains over 25 of our top-selling products for a stress-free, fun, organized practice. ZOBE ships at no cost, allowing you to explore the products before you buy. No charge shipping and return. Only available in USA, contact Zirc for more information. See page 20 for more details.

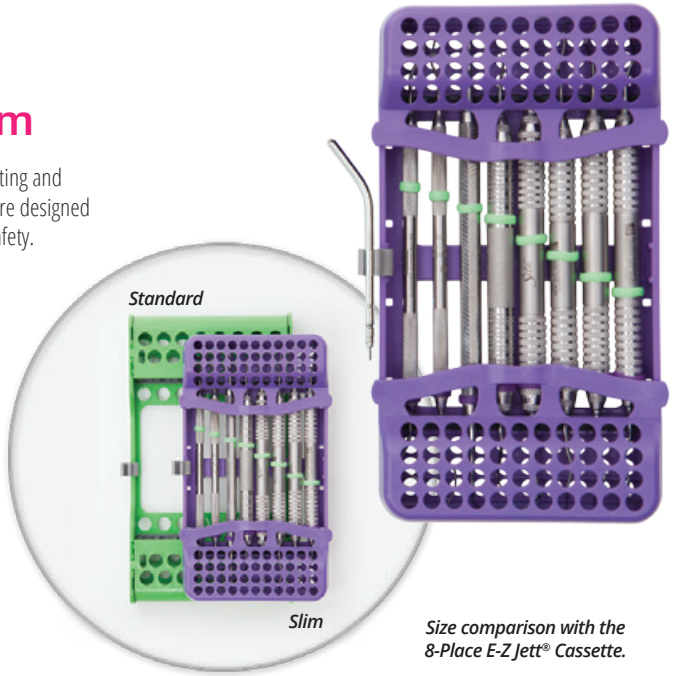
WANT TO MAXIMIZE SPACE?

## E-Z Jett® Compact 8-place Slim

Our autoclavable E-Z Jett® Cassettes extend the life of your instruments by protecting and keeping them together through your procedures and sterilization process. They are designed for superior water flow during cleaning and have non-slip feet for stability and safety.

- Holds 8 instruments
- Covers attached to the cassette open and fold back easily
- Compact size. Fits the Statim
- Maximizes the space of the Ultrasonic and Autoclave
- Stackable in Ultrasonic. Cassettes lightly attach to one another
- Antimicrobial incorporated during manufacturing process
- Syringe Tip Holder included
- Autoclavable



*Size comparison with the 8-Place E-Z Jett® Cassette.*

**Maximize space! Stackable in Ultrasonic and Autoclave!**

AVAILABLE SPRING 2017

## Performance Tool Organizer

A deeper, roomier cassette made for specialty instruments that will not fit in standard cassettes. Design your own layout with our customizable, removable feet. The feet can be positioned to support and protect your valuable instruments. Use the Performance Tool Kit in conjunction with any of our E-Z Jett® Cassettes, which hold your hand instruments. Designed for superior water flow for superb cleaning. See page 15 for full details!

**Holds your large and specialty tools**

**Design your own layout with our customizable, removable feet**

ORGANIZE WITH EASE

# Why Color Coding?

## Increase Profitability

Color coding decreases time for setup and clean up, allowing you to see more patients. It also reduces the amount of inventory needed, limiting expired materials.

## Other Benefits

- Simplified training of new staff
- Decreases amount of inventory – fill one tub vs. stocking multiple treatment rooms
- Easy and efficient re-stocking of dental materials
- Reduces the amount of expired materials
- Reduces the risk of an exposure incident
- Eliminates the need to stop a procedure so the assistant can find a missing instrument or material
- Contains dirty instruments in covered, puncture-proof, leak-proof containers satisfying the CDC and OSHA standards
- Small items stay organized and at your fingertips
- Set-ups appear organized, sanitary, and visually pleasing to patients

### Want help on how to color code in your dental office?

*For more information, visit us online to download our Color Coding brochure.*

**Color coding has been proven to save time for each procedure and will allow you to see more patients in a day.**

SMALL CHANGES

# Big Results

**Cluttered drawers = stress and chaos. Stay efficient with color-coded organization.**

Start by removing everything from your operatory drawers. Place in a large box and set aside. Restock your operatory drawers with staple supplies such as: bibs, saliva ejectors, cotton products, etc. (basically, anything you use in EVERY procedure).

Here's where the Tubs come into play. You need a minimum of one Tub for each procedure. Each Tub should be a different color so that you can quickly identify procedures by color. Stock each Tub with all materials you will need for that procedure.

Store ALL Tubs in a central area (such as sterilization). Take the Tub into the treatment room when a procedure is performed. Pull out what you need at chairside. Disinfect and re-store.

**Reduce your stress and have fun with color organization.**

MAKE IT SIMPLE WITH AN
# All-In-One Kit

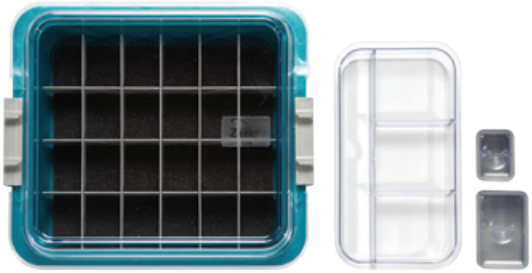
Our kits are designed to store and organize materials and keep your inventory under control. In addition, they are easily portable for transportation between procedures and your centralized location for sterilization, disinfecting, and restocking.

## Complete Tub

Includes: Procedure Tub, Tub Liner, Tub Dividers, Cup/Cover Single, Cup/Cover Double, Divided Slide Tray, Safe-Lok Cover for Tub®. Dimensions: 32cm x 30cm x 10.6cm

(20Z455) **Available in all colors**

AM S



Use: Any Procedure

## Composite Kits

Store and organize composite materials with our convenient Composite Kits. When stored in a Tub, contents become portable and can be transported to a central sterilization area for disinfecting and restocking. Organizational tools help you keep better inventory control with Clip-On Holders that allow you to separate composite for use during procedures. Included Long Tub Cup and Slide Tray provide additional organizational space and Shade Label Sheet provides self-stick labels preprinted with composite shade.

### Syringe Composite Kit

Syringe holder allows you to store up to 40 syringe tubes. Kit includes: Syringe 20-Unit Stand, 1 Long Tub Cup/Cover, 1 Divided Slide Tray, 1 Syringe Clip-On Holder, Shade Label Sheet 2pk.

(20Z489)

AM S

### Capsule Composite Kit

Long Tub Cups provide a total of 20 compartments for capsule storage. Includes: Tub Liner, 4 Long Tub Cup/Cover, 1 Divided Slide Tray, 1 Capsule Clip-On Holder, Shade Label Sheet 2pk.

(20Z479)

AM S

# Build Your Own Tub

## Procedure Tub

Allows you to "build" your own setup.
Dimensions: 31.12cm x 27.62cm x 6.98cm

(20Z463) **Available in all colors**

AM S

## Safe-Lok® Tub Cover

Locking cover for securing materials.
Keep materials protected during storage and transportation.
Dimensions: 32.39cm x 30cm x 3.5cm

(20Z459)

S

## Tub Liner

Foam liner that sits in bottom of Tub.
Tub not included. Replace as needed.
Dimensions: 24.45cm x 22.54cm x .32cm

(20Z462)

## Tub Box

Designed to hold/organize "hard-to-find" supplies.
Non-slip bottom for secure placement.
Dimensions: 21.27cm x 5.87cm x 2.86cm

(20Z474) **Gray Only**

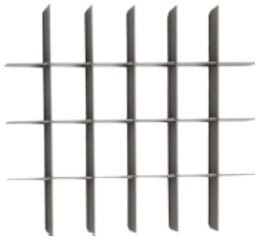
AM S

## Tub Insert

10 compartments for easy organization.
Sits on rim of Tub, allowing for storage underneath.
Dimensions: 27.3cm x 24.6cm x 2.54cm

(20Z465) **Gray Only**

AM S



## Tub Dividers

Creates up to 24 compartments.
May be cut or trimmed to create larger compartments.
Dimensions: 32.39cm x 30cm x 3.5cm

(20Z461) **Gray Only**

AM S

Use color-coded tape on Tub Cups and Tub Box to identify procedural contents. (Learn more on page 19)

## Tub Cups with Covers

Fill Tub Cups with brushes, clamps, cotton pellets, prophy angle tips, prophy paste, pumice, syringe tips, implant tools, etc. Can be used in procedure tubs, drawers, on trays, etc. for small, easy-to-lose items. Covers are transparent.

AM S

### Single Tub Cup with Cover

Dimensions: 5.27cm x 4.13cm x 2.86cm

(20Z471) **Gray Only**

### Double Tub Cup with Cover

Dimensions: 8.6cm x 5.72cm x 2.86cm

(20Z472) **Gray Only**

### Long Tub Cup with Cover

Dimensions: 21.27cm x 5.72cm x 2.86cm

(20Z473) **Gray Only**

Divided Flat

### Divided Slide Tray

Dimensions: 24.77cm x 13.65cm x 2.7cm

(20Z466) **Clear**

### Flat Slide Tray

Dimensions: 24.77cm x 13.65cm x 2.7cm

(20Z467) **Clear**

### Shade Label Sheets 2pk

Preprinted labels for marking Tub materials by procedure. Shade Labels can be used with the Syringe Composite and Capsule Composite Tub Organizers.

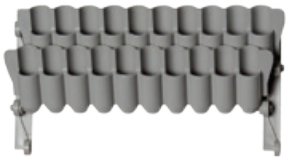
(20Z463-LBL)

### Slide Trays

Sits on rim of Tub and allows for storage underneath.

S

*Check out our Implant and Restorative Organizers on page 40.*



### Syringe 20-Unit Stand

Stands up for easy access to composite.
Lays flat to fit inside Tub or drawer.
Holds up to 20 syringe tubes.
Has space for 2 Syringe 10-Unit Add-Ons
(Stand can hold up to 40 syringes).
Dimensions: 22.22cm x 12.06cm x 3.96cm

(20Z487)

AM S

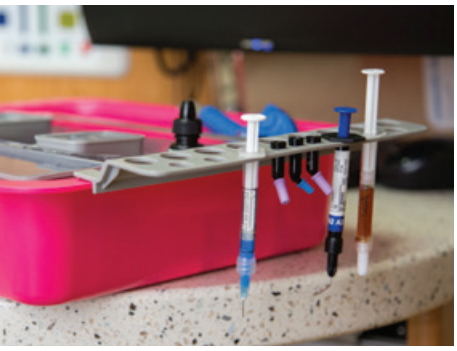
### Syringe 10-Unit Add-on

An Add-on for the Syringe 20-Unit Stand.
Gives additional space for syringe storage.
Holds 10 syringe tubes.
Dimensions: 12.74cm x 5.87cm x 1.9cm

(20Z488)

AM S

*The Syringe 10-Unit Add-on may be added for storage of up to 40 syringe tubes.*

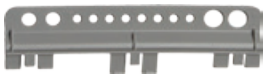


### Syringe Clip-On Holder

Allows quick access to composite during procedure.
Conveniently clips on any side of Tub,
B-Lok Tray or Capsule Composite.
Holds 15 syringe tubes and 3 applicator tips.
Dimensions: 20.32cm x 6.19cm x 1.9cm

(20Z486)

AM S



### Capsule Clip-On Holder

Allows quick access to composite during procedure.
Conveniently clips on any side of Tub or B-Lok Tray.
Holds 8 capsules, 4 syringe tubes, and capsule/gun dispenser.
Dimensions: 20.32cm x 5.08cm x 1.42cm

(20Z476)

AM S

## Trays

Our exclusive Safe-Lok® tray cover provides an excellent method of infection control and safety that allows for two benefits other trays do not:

1. Prevents any contaminated items from falling off of the used tray during transportation from operatory to central sterilization. The contaminated items stay enclosed until you are ready for the cleaning and sterilization process.

2. Set up your procedure trays ahead of time with all instrumentation needed. The Safe-Lok® cover securely locks to the tray, not only keeping items clean, but also allowing for safe transportation to chairside. The cover is removed once the patient is in the chair and the procedure begins.

## Are you in compliance?

### OSHA

Immediately or as soon as possible after use, contaminated reusable sharps shall be placed in puncture-resistant, leak-proof and labeled or color-coded containers until properly reprocessed. (To avoid spillage of contents, it is suggested that they be covered and secured prior to moving.)

### CDC

Dirty Instruments must be "contained" prior to transporting them. Containment can be defined as **instrument cassettes** or cages in which dental care items are cleaned, sterilized, and stored until point of use. Sharp instruments should not be carried openly to the instrument-processing area. Percutaneous injuries may occur to other dental healthcare personnel (DHCP) or patients in hallways leading to the instrument-processing area.

**The Safe-Lok® Tray Cover helps prevent cross-contamination and provide safe transportation back to the sterilization area.**

WHY USE
# Zirc's Cassettes?

A low-cost investment with a quick return! Individual instrument handling takes time away from treating patients and increases overall processing time. Zirc's cassettes will prolong your instrument's life and save you time without breaking the bank.

In a 2014 Implementation of Cassettes Case Report, Marie T. Fluent, DDS, writes how the dental office benefited from the transition from no cassettes to using them with every procedure: "Drs. Dale and Thomas were both grateful that they chose to implement ... an Instrument Management System for the organization, processing, and handling of their instruments within their practice. They agreed that cassettes improved all aspects of instrument management... Initially, their opinions were varied; however, at the conclusion of the one-year anniversary, no clinical staff could imagine processing instruments in any other fashion. Cassette usage had become organized, efficient, safe, and routine." Read the article in its entirety at: www.dentaleconomics.com.

- Designed for superior water flow and cleaning - open top, round holes, and radius corners
- Keeps instrument setups together through sterilization and procedure processes
- Protects instruments from extensive damage and prolongs their life
- Non-slip feet for stability and safety
- AUTOCLAVABLE
- Available in 16 colors for color coding by procedure

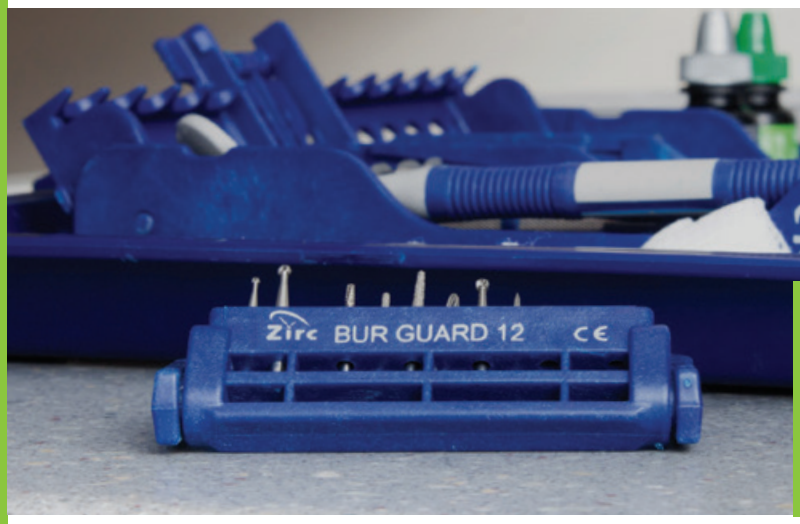
# Bur Guards

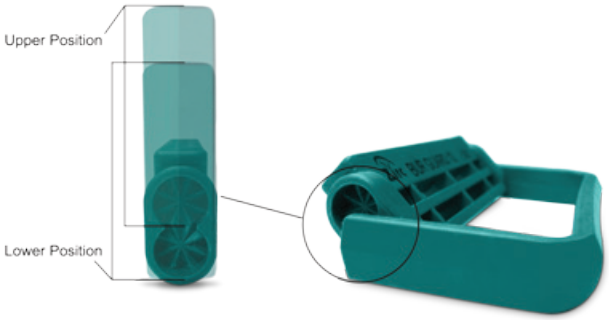


PROTECT YOUR BURS
## Steri-Bur Guards

AM 136°

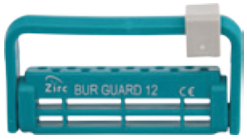
## Steri-Bur Guards and Adapters

This gadget has it all! Not only does it protect your burs during cleaning and sterilization, but it also can be positioned at three different angles to give you easy access at chairside.



### Steri-Bur Guard

- Fits FG, RA, and HP Burs
- Adjustable height for multiple-length burs (Surgical Bur Guard not adjustable)
- Holds bur in position for maximum cleaning effectiveness
- Drain holes help prevent rusting of burs



### 12-Hole Bur Guard

Accommodates burs from 12mm-30mm.
Dimensions: 7.3cm x 1cm x 3.5cm

(50Z406) **Available in all colors**

### 22-Hole Bur Guard

Accommodates burs from 12mm-30mm.
Dimensions: 12.2cm x 1cm x 3.7cm

(50Z410) **Available in all colors**

### 12-Hole Tall Bur Guard

Accommodates burs from 30.9mm-37.1mm.
Dimensions: 7.3cm x .95cm x 4.3cm
Ideal for nose-cone lab burs

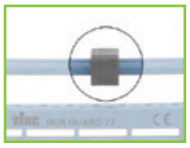
(50Z408) **Available in all colors**

*A Short Bur Adapter is included to stop any shorter burs from falling out.*

### Universal Bur Adapter 5pk

Can be used with 12- or 22-Hole Bur Guard. Enables long and short burs to be used in the same bur guard without short burs falling out.

(50Z412)



(Burs to scale)
**12- & 22-Hole Bur Guard**

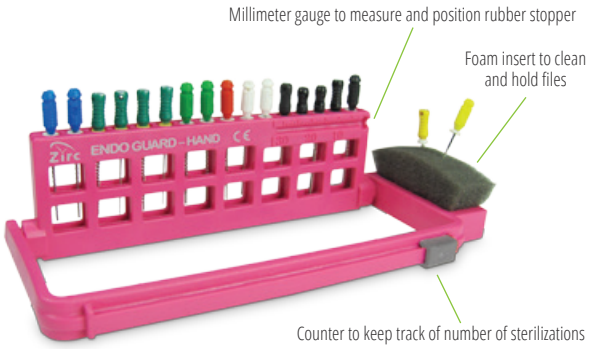
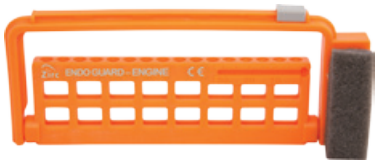
## Endo Guards

A unique delivery system to organize, store, and sterilize endodontic files and reamers. The Endo Guard swivels 360° with stops at every 45° for operator's choice. Large slotting provides complete visibility and draining during cleaning.

### Steri-Endo Guard

- Holds most lengths for staging, cleaning, and sterilizing files and reamers
- Millimeter gauge measures and positions rubber stopper
- Counter on locking bar tracks the number of sterilizations
- Right- or left-hand use; optional angling
- Available in Hand or Engine styles
- Single-use foam insert cleans/holds files (packaged with 12)





### Steri-Endo Guard Engine

Organizes up to 11 engine and 5 hand files/reamers.
Dimensions: 13.65cm x .95cm x 5.56cm

(50Z452) **Available in all colors**

### Steri-Endo Guard Hand

Organizes up to 16 hand files/reamers.
Dimensions: 13.65cm x .95cm x 5.56cm

(50Z450) **Available in all colors**

### Foam Inserts

Single use.

(50Z451) **48pk**
(50Z451V) **144pk**

*Unique organizer rests on your finger.*

### Endo Assist

Built-in millimeter gauge measures and positions rubber stopper.
For right- or left-hand use.
Small and large rings are included to accommodate most finger sizes.
Flat bottom enables the Endo Assist to stand freely on its own.
Single-use foam insert cleans/holds files (packaged with 12).
Dimensions: 3.81cm x 4.45cm x 4.13cm

(50Z460) **Available in all colors**

AM 136°

### Assist Stand

Dense foam cleans bio-debris faster and more easily.
Holds Endo Instruments in an upright position.
Square shape fits great in procedure tub.
Thicker foam prevents solution from leaking.
Rounded corners for easy cleaning.
Dimensions: 4.76cm x 4.76cm x 3.16cm

(50Z462) **Black Only**

AM 136° 

### Assist Stand Foam

# mirror magic® Anti-Fog Solution

without mirror magic®

with mirror magic®

mirror magic®
anti-fog system

**Anti-Fog Solution removes debris from dental instruments!**

## Increase Your Chairside Efficiency

The mirror magic® Anti-Fog System prevents fogging on mouth mirrors and offers the practitioner a quick method for removing debris during procedures. The disposable Swipe Pads stick to the back of a gloved hand or a patient bib for easy access. The Anti-Fog System requires only a small amount of solution and is economic in size, making it easy to store.

### mirror magic® Trial Kit
