Promoting good oral health since 1965

TePe's products and solutions are trusted by people all over the world for their daily self-care routines. From brushes, picks and flossers to oral care guides and education, everything that we offer is designed to help people maintain a healthy mouth.

TePe was founded by the Eklund family in 1965. Ever since then, we have developed our high-quality oral care range in partnership with the dental profession, taking responsibility for people, health and the environment throughout the innovation process.

Box

A choice that matters:

The green leaf indicates that TePe sources 100% raw materials for the toothbrush- and interdental brush handles, as well as the flosser, tongue cleaner, travel case, cap and extra grip, from either renewable feedstock* or certified renewable sources via the mass balance approach, the latter independently certified by the International Sustainability and Carbon Certificate PLUS (ISCC PLUS).

* TePe Choice™ toothbrush, made with a reusable wooden handle, and TePe GOOD™ tongue cleaner, toothbrush- and Mini Flosser handle made with materials sourced from sugar canes.

Sustainable choices matter – to you and your patients

Climate change and its impacts are one of the greatest challenges of our time. That's why we have made it our priority.

To meet the expectations of our partners and consumers, we constantly increase the sustainability of our range. Today, most TePe products are made with materials from renewable sources and produced using 100% renewable energy.

As dental professionals, you make important choices for your patients every day – and we are here to support you. Together, we will continue the development of new and more sustainable solutions.

TePe Share – we share a passion for knowledge

TePe's heritage is built on a close collaboration with dental professionals. We share the vision to bring healthy smiles for life by inspiring good oral health.

We care about people's health. Therefore, we keep developing solutions for longterm wellbeing and a better quality of life. Considering the growing scientific support for a link between oral and general health, creating positive change is more relevant than ever.

Therefore, we invite you to take part of TePe Share – in-depth knowledge, topical research and engaging discussions. For your personal development and shared for the good of all.

Interdental cleaning

TePe has a long tradition of developing products for preventive oral care with a special focus on interdental cleaning. Our range offers a variety of options to facilitate daily interdental care for everyone.

TePe Interdental Brushes

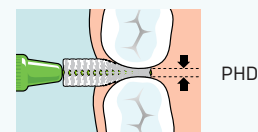

According to studies, interdental brushes are the most effective tool for removing dental plaque between teeth. We have developed our brushes in collaboration with dental experts to certify the highest functionality, comfort and quality.

The wide TePe Interdental Brush range offers an option for everybody – multiple sizes, two bristle textures and two handle lengths with a straight or angled brush head.

The brushes comply with the international standard for manual interdental brushes (ISO 16409) which stipulates nine sizes, 0-8. We offer colour-coded brushes in all nine sizes to cover the wide span of interdental space varieties.

TePe Interdental Brush Size Chart

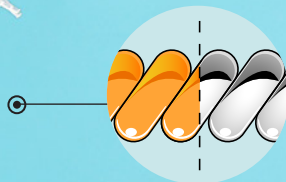

Original									
Extra soft									
Angle									
Colour	Pink	Orange	Red	Blue	Yellow	Green	Purple	Grey	Black
ISO size (0-8)	0	1	2	3	4	5	6	7	8
PHD (mm)	0.6	0.7	0.9	1.1	1.3	1.6	2.0	2.6	3.4
Wire size (mm)	0.4	0.45	0.5	0.6	0.7	0.8	1.1	1.3	1.5

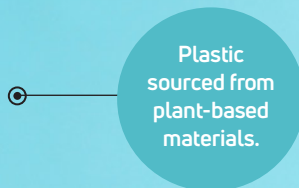

The measurement between the dotted lines shows the smallest hole which the brush can pass through, passage hole diameter (PHD), using a clinically relevant force.

A choice that matters

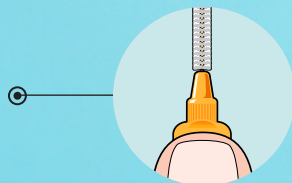

TePe sources 100% raw materials for the interdental brush handles from certified renewable sources via the mass balance approach, independently certified by the International Sustainability and Carbon Certificate PLUS (ISCC PLUS).

Plastic coated wire and rounded tip for safety and comfort.

Plastic sourced from plant-based materials.

Ergonomic handle for a stable grip.

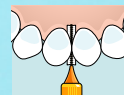

TePe® Interdental Brush Original

- The user-friendly handle offers a stable grip which enables cleaning with controlled movements.
- The bristles cover the entire wire for safe and gentle cleaning.
- The smaller brush sizes (0-3) have a flexible neck for increased durability and access. The larger brush sizes have a thicker, bendable wire.

Smaller sizes: Curve the flexible neck for access between the posterior teeth.

Interdental cleaning.

Larger sizes: Curve the wire for access between the posterior teeth.

Furcations.

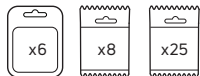

TePe® Interdental Brush Original is also available in a mixed pack.

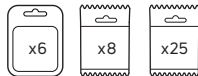

The plastic cap can be used for hygienic protection or to extend the handle.

Ideal on the go

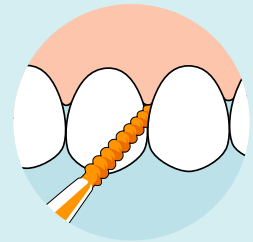

A handy pocket case for TePe EasyPick™ is included for easy cleaning on the go.

References: Chapple IL et al. J Clin Periodontol. 2015 Apr;42 Suppl 16:S71-6. Ustaoglu G et al. Clin Oral Investig. 2020 Jun;24(6):2121-2127. Sälzer S et al. Periodontol 2000. 2020 Oct;84(1):35-44.

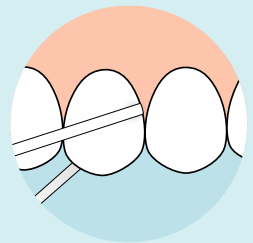

Recommending the correct interdental cleaning device

Individuals with spaces between teeth benefit the most from interdental brushes, which effectively clean the concave and irregular proximal area.

TePe EasyPick™ is a good choice for healthy proximal sites, in the case of gingivitis, and as an on-the-go alternative for everyone.

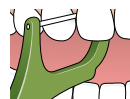

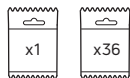

Floss is recommended for tight, healthy proximal sites, where an interdental brush will not fit.

TePe Mini Flosser™

- Pre-loaded dental floss holder for easy and convenient use in narrow spaces.
- Strong, thin, teflon free floss.
- Handle made from sugar cane and wood fibres.
- Bite plane for safe and gentle insertion.

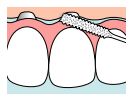

Insert the floss by gently biting onto the bite plane.

TePe® Bridge & Implant Floss

Amount: 30 pcs

- Spongy, flexible floss with stiff ends for easy insertion.
- For daily cleaning of implants, bridges and orthodontic appliances.
- Intended for one-time use.

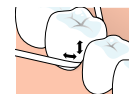

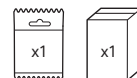

Implant-supported bridge.

TePe® Dental Floss

Length: 5 m / 40 m

- The expanding floss adapts itself to the dental space and suits different gaps.
- Slides easily between teeth without shredding due to the vegetable wax/avocado oil coating.
- Floss made from recycled water bottles.
- Fresh mint flavour.

Gently move the floss along each tooth surface.

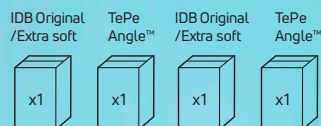

Sustainable packaging matters

Shifting to renewable or recycled materials is a priority. Today, we use FSC branded paper and recycled cardboard, while our plastic packaging is made from either partly recycled or renewable materials. All packaging is 100% recyclable.

Practice Box

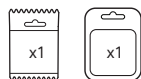

- Practical storage of TePe's interdental brushes in the dental practice.
- 8 removable trays for IDB Original and Extra Soft, and 4 trays for TePe Angle. Each tray holds 15 brushes.
- A useful information chart with brush sizes comes with the box.

TePe® Gingival Gel

Size: 20 ml

- Contains chlorhexidine (0.2%) to fight bacteria, and fluoride (0.32% NaF) to strengthen the tooth enamel and protect sensitive root surfaces.
- Non-abrasive, without alcohol and colourants.
- Fresh mint flavour.

Use the cap as a bowl to apply gel.

TePe® Travel Case

- Practical travel case for TePe® Interdental Brush, TePe Mini Flosser™ or TePe EasyPick™.
- Air holes to allow bristles to dry.
- For hygienic storage during travel.

Toothbrushes

TePe's user-friendly toothbrushes are developed for effective and gentle plaque removal. A variety of models and sizes facilitate daily oral care for adults and children.

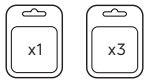

TePe GOOD™ Regular

Size: Regular

Bristles: Soft

- Tapered brush head for easy access.
- End-rounded bristles for gentle and effective cleaning.
- Made from plant-based materials.

TePe GOOD™ Compact

Size: Compact

Bristles: Soft

- Small, tapered brush head for easy access.
- End-rounded bristles for gentle and effective cleaning.
- Made from plant-based materials.

TePe GOOD™ Mini

Size: Mini

Bristles: Extra soft

- Suitable from the first tooth until 3 years of age.
- End-rounded bristles for gentle and effective cleaning.
- Made from plant-based materials.

Renewable materials matter

The choice of raw materials has a significant impact on the carbon footprint of a product. By replacing fossil materials with carefully selected renewable raw materials, and using only renewable energy in production, we take important steps towards lowering the carbon footprint of our products and packaging.

A choice that matters

The new and innovative TePe Choice™ is designed to make good decisions easier. It has a reusable beech wood handle, replaceable brush heads and castor oil bristles. Less plastic, less waste and a smaller footprint. TePe Choice™. Because everyday choices matter.

New!

TePe Choice™

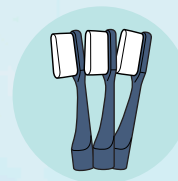

Size: Regular
Bristles: Soft

- Made from renewable materials lowering the carbon footprint.
- Plant-based coating on the handle to minimise moisture absorption.
- Soft, end-rounded bristles for gentle and effective cleaning.
- Tapered brush head for easy access.

One reusable handle.

Each pack includes three replaceable brush heads.

TePe Select™ Regular

Size: Regular

Bristles: Extra soft, soft & medium

- Tapered brush head for easy access.
- End-rounded bristles for gentle and effective cleaning.
- User-friendly handle design.
- Made with plant-based materials through the mass balance approach.

TePe Select™ Compact

Size: Compact

Bristles: Extra soft, soft & medium

- Small, tapered brush head for easy access.
- End-rounded bristles for gentle and effective cleaning.
- Suitable for children and adults who prefer a smaller brush head.
- Made with plant-based materials through the mass balance approach.

TePe Kids™

Size: Compact

Bristles: Extra soft & soft

- Toothbrush with colourful print, suitable from the age of 3 years.
- Small, tapered brush head for easy access.
- End-rounded bristles for gentle and effective cleaning.
- Made with plant-based materials through the mass balance approach.

TePe Mini™

Size: Mini

Bristles: Extra soft & soft

- Recommended from the first tooth.
- Extra small, tapered brush head and end-rounded bristles for gentle and effective cleaning.
- Available with or without charming prints created by Swedish Isa Form.
- Made with plant-based materials through the mass balance approach.

Imprinting service

Personalise your toothbrush with TePe's imprinting service – an excellent marketing opportunity for dental practices. All TePe toothbrushes are now made with plant-based materials.

Logotypes, images and messages can be printed on our GOOD, Select, Select Compact, Colour, Colour Compact and Mini toothbrushes. Choose between a variety of different handle colours and print colours for amazing designs.

GOOD brushes for imprinting

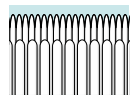

A choice
that matters

TePe Supreme™

Size: Regular
Bristles: Soft

- Unique two-level bristle design for excellent reach.
- Easy-grip handle with thumb pad for extra comfort.
- Made with plant-based materials through the mass balance approach.

Two levels for improved access between and around teeth.

TePe Supreme™ Compact

Size: Compact
Bristles: Soft

- Unique two-level bristle design for excellent reach and easy-grip handle with thumb pad.
- Suitable for children or for adults who prefer a smaller brush head.
- Made with plant-based materials through the mass balance approach.

TePe Nova™

Size: Regular
Bristles: Extra soft (pink), soft (yellow) & medium (blue)

- Long brush tip and end-rounded bristles for effective and gentle cleaning.
- Easy-grip handle with thumb pad for extra comfort.
- Made with plant-based materials through the mass balance approach.

Longer tip for improved access to back teeth.

Improved access

For even better access, the neck of TePe's toothbrushes can be angled. Heat in warm water, bend, and cool in cold water.

TePe Colour™

Size: Regular

Bristles: Soft

- Tapered brush head for easy access.
- End-rounded bristles for gentle and effective cleaning.
- User-friendly handle design.
- Made with plant-based materials through the mass balance approach.

TePe Colour™ Compact

Size: Compact

Bristles: Extra soft

- Small, tapered brush head for easy access.
- End-rounded bristles for gentle and effective cleaning.
- Suitable for children or for adults who prefer a smaller brush head.
- Made with plant-based materials through the mass balance approach.

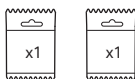

TePe Classic™

Size: Regular

Bristles: Extra soft & soft

- User-friendly handle design.
- End-rounded bristles for gentle and effective cleaning.
- For those who prefer a bigger brush head.
- Made with plant-based materials through the mass balance approach.

TePe PlaqSearch™

Size: 10 tablets/per pack

- A disclosing product for quick and simple self-check identification of plaque.
- Two-tone colour indicators.
- Teaching aid for better oral health.

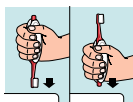

Differentiates new (red) and old (blue) plaque.

TePe® Extra Grip

- Weighs only 30 grams.
- Provides a comfortable, stable grip which helps patients with reduced manual dexterity.
- Fits TePe Select, TePe GOOD toothbrushes and most of our special brushes.
- Easy to insert and remove by tapping the toothbrush handle on a hard surface.
- Made with plant-based materials through the mass balance approach.

Insert/remove the brush by tapping the handle against a table.

TePe® Brush Head Cap

- Small, practical travel cap.
- Air-holes ensure quick drying of the brush.
- Suits all TePe toothbrushes and special brushes (except the Denture Brush).
- Made with plant-based materials through the mass balance approach.

Special products

TePe offers a wide range of cleaning devices developed for individuals with specific oral hygiene needs. Close collaboration with dental professionals ensures excellent functionality and a high level of quality. All products are clinically tested and evaluated.

TePe Compact Tuft™

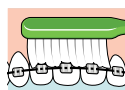

- Optimal for precision cleaning.
- Dome-shaped brush head with dense, rounded tuft.
- Ideal for cleaning along the gum line, on the occlusal surfaces of emerging teeth, or impacted wisdom teeth.
- Made with plant-based materials through the mass balance approach.

TePe® Implant Orthodontic Brush

- Extra slim brush head for improved access.
- Optimal for cleaning buccal implant surfaces or orthodontic appliances.
- Long and thin neck for better access.
- Made with plant-based materials through the mass balance approach.

Effective cleaning around brackets and wire.

TePe Universal Care™

- A unique angle provides easy access to the lingual and palatal surfaces of teeth and implants.
- Facilitates cleaning in narrow and hard-to-reach areas.
- End-rounded bristles for gentle cleaning.
- Made with plant-based materials through the mass balance approach.

The angled neck facilitates cleaning of lingual surfaces.

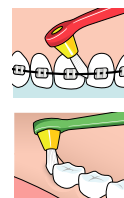

TePe Interspace™

Bristles: Soft (yellow) & medium (blue)

- Ideal for cleaning furcations, implants, fixed braces or behind the last tooth.
- Brush tip can be attached to either side of the handle.
- Comes with 12 replaceable brush tips.
- Made with plant-based materials through the mass balance approach.

TePe Special Care™

Size: Regular (red) & Compact (blue)

Bristles: Ultra soft

- 12,000 (Regular) and 9,000 (Compact) ultra soft bristles for delicate cleaning.
- First brush stage after oral surgery.*
- For patients with extremely sore and delicate tissues, e.g. as a result of trauma, radiotherapy treatment or after oral surgery.
- Made with plant-based materials through the mass balance approach.

* A dental professional should always be consulted regarding brushing after oral surgery.

TePe Gentle Care™

Size: Regular

Bristles: Super soft

- Super soft filaments for gentle cleaning.
- Second brush stage after oral surgery.*
- For patients with dry mouth, sensitive root surfaces or sensitive oral tissues.
- Made with plant-based materials through the mass balance approach.

TePe® Denture Care

Size: Regular

- Effective and safe cleaning of removable dentures.
- Brush head can be bent backwards for improved grip and accessibility.
- Designed to resemble a regular toothbrush.
- Made with plant-based materials through the mass balance approach.

Long, strong filaments for efficient cleaning of dentures.

TePe® Dental Model

- For patient demonstration and instruction.
- Shows crowding, various interdental spaces, furcation, an erupting wisdom tooth and tooth loss.
- Can be marked with a non-permanent pen for instructional use.

Delivered in a brown hard paper box.

TePe® Tongue Cleaner

- Three blades for a triple cleaning effect.
- Helps prevent bad breath (halitosis).
- Removes bacteria in a few strokes.
- Dishwasher safe.
- Made from plant-based materials through the mass balance approach.

TePe® Orthodontic Kit*

The kit features carefully selected self-care products and readily accessible tips and advice for orthodontic patients.

Products included:

- Supreme Compact toothbrush
- Compact Tuft, single tufted brush
- Interdental brush, ISO size 4 and 5
- Angle interdental brush, ISO size 4
